DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 35 and 44-52 are rejected under 35 U.S.C. 102(b) as being anticipated by Ban (5,848,516).

Ban discloses toner bottle 1 that reads on the instant invention's developer supply container (note column 4, lines 6-13) used in image forming apparatuses (note column 1, lines 6-10). The developer supply container 1 has a discharging opening 2f and a shutter member 2c that is a rotary shutter. The shutter member 2c has a plurality of communicating portions 2e (note column 7, lines 28-50; and Fig. 1) that communicates with the opening 2f and closing portions 2h (both adjacent to openings 2e) so that the opening 2f can be closed by closing portions 2h (Fig. 6) or opened by portions 2e. Note column 9, lines 6-18. Since the developer needs to be replenish (note column 1, lines 10-41), the developer supply container can be detachable to the image forming apparatus.
